SELECTED PROJECTS

Exhale (Dead Vapes Society): Social Habit-Tracking Platform | UX/UI Design, React Native, Figma, Product Strategy | 2026 - Present

Leading UX strategy and interface design for a three-person startup team building a social habit-tracking app that pairs with a Bluetooth-enabled wearable sensor. Overseeing wireframing, prototyping, and the React Native build in Figma, with a target launch of September 2026. Currently in the prototyping phase.

Constructing Campus Identity: Design Ethnography Case Study | UX Research, Ethnographic Fieldwork, Concept Design | Winter 2026

Spent a quarter observing campus spaces and talking to students about how they actually experience UC Davis, then compared that to how the university brands itself. Found a real gap between the two and used it as the basis for a satirical concept character and short narrative pitch questioning how the school's mascot system works.

InterACE: AI-Powered Interview Prep App (Case Study) | UX/UI Design, Figma, Branding | Fall 2024

Designed the UX and brand identity for a concept app that personalizes interview prep, starting from user research and ending in a high-fidelity prototype.
